OVERVIEW

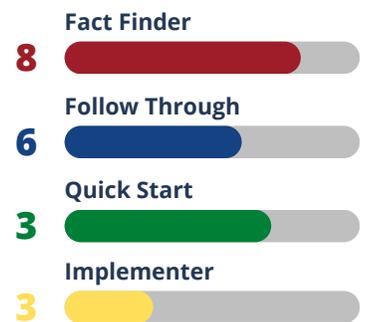

Amanda Wilkie, Consultant at Boomer Consulting, Inc., has a computer science background, but she's not your average geek. With two decades of technology experience, Amanda has spent nearly 20 years driving change and process improvement through innovative technology solutions working across firms of varying sizes in the public accounting profession. She has held strategic leadership positions in firms ranging from Top 50 to Top 10 including her time as CIO of a Top 30 firm.

Amanda is a recognized as a technology expert in the accounting profession who regularly speaks and writes and writes on emerging technologies, such as blockchain and Web3, and their impact on the accounting profession.

KOLBE

Amanda's Kolbe A™ Index reveals her to be excellent in situations that require strategic organization of information. She is adept at setting priorities and putting them into appropriate sequences. Her talent with both strategics and tactics make her essential to any massive effort.

Learn more about Kolbe [here](#).

UNIQUE ABILITIES

Amanda's natural curiosity ensures she is always exploring new skills. Her forte is combining fact-finding skills with a follow-through talent for seeing themes. She invests her energy in figuring out the background of a problem and the steps necessary to solve it.

PERSONAL

She volunteers her time and experience to an organization that works with disadvantaged young adults who just need a hand and a champion to become professionals. When she takes a break from her professional endeavors, you can find her running trails in her hometown of Alexandria, Virginia or planning her next vacation with friends.
